- Students must complete a minimum of 124 credits for a B.A. degree that consists of university requirements, college skills and breadth requirements, required courses in the major and, if applicable, elective courses. No more than 45 credits with the same departmental prefix (including cross-listed courses) may be counted toward the total credits required for the degree.
- \*Students must earn a minimum grade of C- in each course to fulfill **major** requirements.
- \*Students enrolled in a single major may not satisfy the **University breadth requirements** with courses in the subject area of their major (e.g., Chemistry majors may not use CHEM courses).
- \*Up to 3 credits from each of the **University breadth requirements** categories may be used to simultaneously satisfy **College of Arts & Sciences breadth requirements**.
- \* Students may not use a course that is cross-listed with a subject area that has already been used to satisfy **University breadth requirements**.
- \***College of Arts & Sciences breadth requirements** are in addition to the **University breadth requirements** and apply to all Bachelor of Arts degrees.
- \*To fulfill **College of Arts & Sciences breadth requirements**, students must take courses from two different subject areas/departments (e.g., the four-letter subject/department code ACCT, HIST, etc.).
- \* If a grade earned in a course satisfies the minimum grade requirement, that course may be applied toward more than one requirement (e.g., breadth and major requirements), but the credits are counted only once toward the total credits for graduation.
- ~The **Math requirement** must be completed by the time a student has earned 60 credits. Students who transfer into the College of Arts and Sciences with 45 credits or more must complete this requirement within two semesters.
- @The **Foreign Language requirement** is completion of the intermediate-level course (107 or 112 or 202 or 214) or through the exemption exam. The number of credits needed and initial placement will depend on the number of high school units.
